

Hopkins Alumni and Florida residents:

I love to attend the Hopkins Academy reunions as much as I can. Was in the military for 28 years and later lived in the Midwest for another number of years. Got back to the all class reunions and also gathered our class of 1958 together for our own class get togethers. Had the idea of the possibility of seeing if the now Florida based alumni would be interested in having a reunion of our own. For those who may be reading this, what is your thoughts on this idea?
